FINDING YOUR WAY

You and your brother are making your way 1 to a friend's house for the first time. Your brother makes fun 2 of you because you want to make 3 sure you're going the right way by checking the GPS on your phone. Have you ever thought about how this works? Your phone is listening out for satellites; it works out how far away you are from the satellites and that's how it knows where you are. It wouldn't be a good thing if we did 4 away with them! Before technology, when explorers made 5 up their minds to sail across oceans, they navigated their routes by making 6 out stars in the sky. As long as they used Polaris or the North Star, they didn't often make 7 a mistake about where North was.

4 ☆☆☆ Complete the forum with *make* or *do* in the correct form and the words in the box.
