- 1 Scan the text on page 117. Do young people watch more TV than their parents?  
No, they don't.
-

**2** What text genre is it?

**a** A magazine interview.

**b** A news article.

## Too Much TV and Not Enough Sleep?

**D**o your parents say you watch too much TV? Do they think you always watch cartoons and reality shows? So show them this article. A new report says that young people watch TV for one hour a day, but their parents usually watch it for three hours. This report also says that young people don't watch many movies on their TVs. This generation prefers computers, so do young people watch them online? Yes, they do! They watch them on streaming services like Netflix, Hulu or Amazon.

The computer is now a replacement for the TV and a lot of teenagers spend their time on it: they surf the internet to play games, listen to music and download songs. More than 50 per cent of 11–13 year-olds have a computer in their room and they don't get enough sleep because of it. Teenagers sleep for only four hours so they are very tired the next day at school.

Do you agree? Do you usually stay up late during the week? Discuss your opinion with your friends and send us a message. We want to hear from our readers.
