An unusual night!

I got home yesterday and I noticed **something** was wrong. The door was open but I couldn't see **anything** because it was very dark. I didn't know if I should call **somebody** or if I should go inside. I decided to call the police. I tried to find my cell phone but it wasn't **anywhere** in my bag, then I remembered it was in the car. When I opened the car's door, **somebody** turned a light on in the living room. When I got my cell phone to call the police, it rang. I answered and it was my husband. I said: "I think **somebody** is robbing our home!". And he told me: "That's impossible. There isn't **anybody** robbing our home!" and I ask: "How do you know that?" He answered: "Because I'm here in the living room calling you. There is **nothing** wrong here. By the way, why are you so late?" Well, I didn't answer that question but he had to explain why he had left the door open.
