## The Victoria and Albert Museum

The Victoria and Albert Museum, commonly known as the V&A, is a museum of art and design in London. It was established in 1852 and is named after Queen Victoria and her husband, Prince Albert. The museum's collections cover a wide variety of art forms from different historical periods and from all around the world. These include architecture, ceramics, painting, design and fashion, among many others. Visitors can see everything from medieval sculpture to oriental carpets.

Many famous British designers have their work on display in the popular fashion collection. There are designs by Vivienne Westwood, miniskirts created by Mary Quant and a selection of boots by Biba, the iconic London fashion boutique of the 1960s and 1970s. As well as contemporary clothes, there are fashion designs from previous centuries, including King James II's wedding suit from his 1637 marriage to Mary of Modena.

Special exhibitions are also held at the V&A. In 2007, there was an exhibition called Kylie – The Exhibition, a display of Kylie Minogue's extravagant costumes from her concert tours.
