## World Water Day

### AN INTERNATIONAL DAY OF ACTION

Almost 1 billion people in the world don't have clean water to drink.  
2.5 million people don't have access to a toilet.  
Every day, 24,000 children under the age of 5 die because of unsafe water.  
Many children can't go to school because they need to walk for hours to get water for their family.

March 22 is World Water Day, when there are events around the world focusing on the water crisis. So what should we do on World Water Day?

#### Stand in a toilet queue\*

Jamie Cranks and his friends are from Vancouver. March 22 isn't going to be a normal school day for them because they're going to stand in an unusual queue. Their teacher is going to join them, too!

In fact, people in about 80 countries are going to work together to form the world's longest toilet queue.

#### Donate your Facebook or Twitter status.

Amy, her friends and thousands of other people are going to donate their Facebook and Twitter status to Water.org from March 21 to 26. When Hollywood actor Matt Damon and engineer Gary White created the organization, they had a clear objective: everyone should have access to clean water to drink. Water.org works with local partners to help individuals and communities to meet their own water and sanitation needs. On World Water Day, Water.org is inviting people to donate their Facebook and Twitter statuses to tell millions about the water crisis.
