I'm really stuck with my packing.

You should have packed yesterday!

I know, but I couldn't do it then.
Now I've got far too much.

Jason

First, put your **1** clothes in two piles.
What do you definitely need? What
can you leave behind? And make sure
you roll the clothes up so they take up
less space.

Gabby

Yes, and now I can fit in
some more clothes!

Jason

Try not to fill your case – then there's
space for your holiday **2** souvenirs .

Gabby

Gabby

Oh, right. Well, I'll just put my tablet, passport and plane ticket in the case.

Jason

Whatever you do, don't put 3 valuables in your case! Put them in your hand.

Gabby

OK. Now, have I forgotten anything?

Jason

Remember the 4 charger for all your digital devices and check whether you need an 5 adaptor ! Always pack them in a small bag so they'll be easy to find.

Gabby

Done! Thanks so much for your help!

Unit 4 Graphic organizer

How to edit a video

- Be clear about what you want to achieve and keep it quite simple – don't try to include too many special effects or too much material.
- As you work, put clips, sound files and images in separate folders, and label them so you can find what you need. Keep copies of each file, just in case.
- Find an editing tool online and experiment with editing. Remember, you can upload what you like and try different combinations, as you will still have the original files.
- Show your video to different people and ask for feedback. Make any final changes.
