PAGE 57

1 Circle the correct option.

A new study about young people in America
1 reported/advised that teenagers are using their
free time differently now than ten years ago. It
2 denied/confirmed that teens now spend more
time sleeping and doing homework. The researchers
3 promised/added that teens don't work as much now
and 4 explained/replied that they also spend
less time with friends. It 5 recommended/admitted
that teenagers socialize more and use less technology.
The report also 6 pointed out/offered that boys
and girls use their time a little differently. It 7 said/
told that screen time was more popular with boys.
While some people 8 refused/denied that this is true,
evidence from the report backs up their statistics. 36%
of girls and 23% of boys also 9 complained/invited
that they feel stressed almost every day and more
girls than boys 10 offered/claimed that they feel
pressure to look good.

Idioms and expressions about time

- 2** Complete the sentences with the phrases in the box.

PAGE 58

be on time better late than never
make time for manage your time
run out of time there's no time like the present
time flies when you're having fun ~~time will tell~~
you can't turn back the clock

- 1 Will people still use cell phones in the future?
Time will tell !
- 2 It's no good wishing you could change the past.
You can't turn back the clock.
- 3 I know I should have been here an hour ago – sorry!
Better late than never!

4 Hurry! We don't want to **run out of time** !

5 Writing a schedule is a good way to **manage your time** .

6 Your hobbies are important: you should **make time for** them every week.

1 Read the notes and complete the article.

- The brain needs rest
- 'Doing nothing' is a skill most people have to learn
- When people are doing nothing, they feel more alive
- Being busy has become a bad habit
- We tested people – we found that after resting, people are more productive

Why we should learn to do nothing

Researchers recently said that the brain **1** needed rest to process information. They pointed out that 'doing nothing' **2** was a skill that most people **3** had to learn, and said that when people **4** were doing nothing, they **5** felt more alive. They explained that being busy **6** had become a bad habit. There are advantages to giving the brain a rest. The researchers explained that they **7** had tested people and they **8** had found that after resting people **9** were more productive.

2 Rewrite the sentences as reported requests, offers, suggestions and commands.

PAGE 59

- 1 'Let's do the project together!' my friend said.

My friend suggested that we should do the project together.

- 2 'Don't walk on the grass!' the gardener said to us.

The park keeper told us not to walk on the grass.
