#### **READING**

Hello, my name is Sara and I live in San Francisco. San Francisco is a beautiful city in California. Many people come here on holiday there are many tourists on the streets, cafes, restaurants, parks and museums. The winter is cold and rainy, but in this summer the weather is usually good. I don't like the winter.

I work in a Colombian restaurant called "mamma's food" iron chef under a student every day. I wake up early and good to the food market to buy fresh fruits, vegetables, meat, chicken and fish.

My brother works at the restaurant too. His name is Carlos. He is a waiter at the restaurant; he doesn't like cooking.

My favorite dish is vegetables soup. It is made with tomatoes, pumpkin, spinach, eggplant and meat.

Mamma's food is a small restaurant, with only 12 tables. We serve soups, pasta dishes, vegetables, fish, deserts of plum and natural juices of pineapple, gooseberries, passion fruit and soursop. There is a wine list, and two types of beer. The food is simple, but very good.

The restaurant gets very busy on weekends. It is located in the city center, near the hotels.
