MOTIVATING STRATEGY

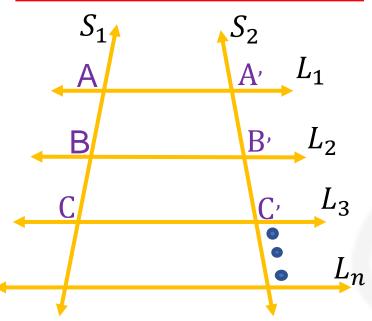

Resumen

HELICO THEORY

TEOREMA DE THALES

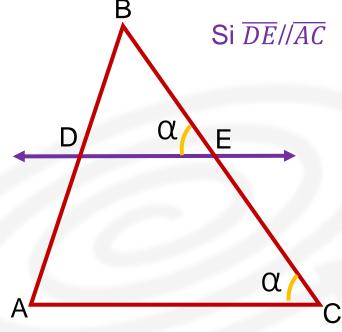

De la figura

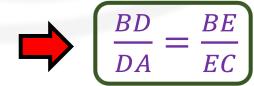

Si $L_1/|L_2/|L_3/|...L_n$, S_1 y S_2 son secantes de dichas rectas.

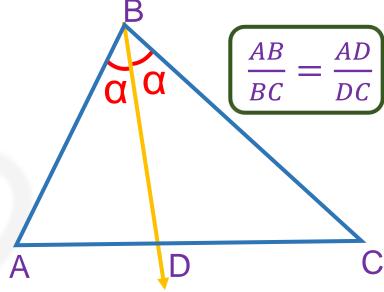

$$\frac{AB}{BC} = \frac{A'B'}{B'C'}$$

COROLARIO DE THALES

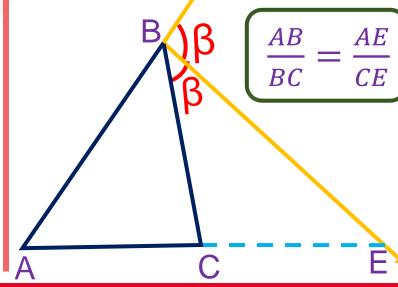

Teorema de la B. Interior

Teorema de la B Exterior

 \bigcirc

Problema 01

Problema 02

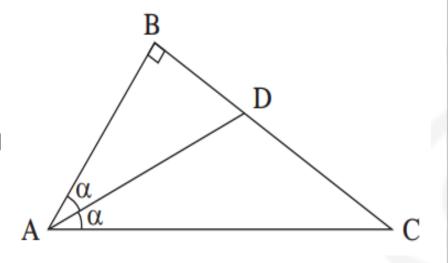

Problema 03

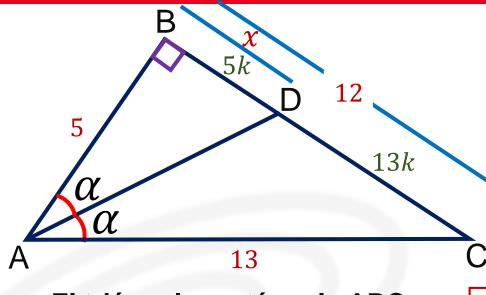

Problema 04

Problema 05

HELICO PRACTICE

En la figura, AB=5 y AC=13. Calcule DC.

• El triángulo rectángulo ABC: Teorema de Pitágoras.

$$5^2 + (BC)^2 = 13^2$$

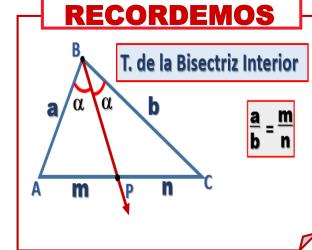

BC = 12

 Por el teorema de la bisectriz interior.

$$5k + 13k = 12$$

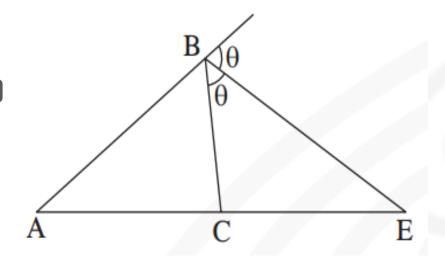

$$\mathbf{k} = \frac{2}{3}$$

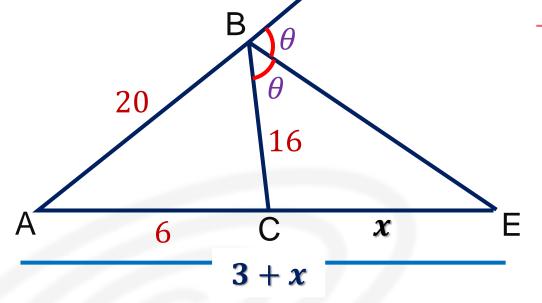

$$\mathbf{x} = 5\mathbf{k} = 5 \cdot \frac{2}{3}$$

Respuesta $\therefore x = \frac{10}{3}$

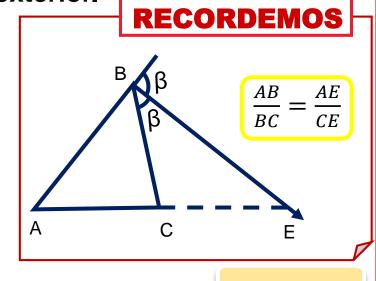

En la figura, AB=20, BC=16 y AC=6. Calcule CE.

- Por teorema de la bisectriz exterior.
- En el problema.

$$\frac{20}{16} = \frac{6+x}{x}$$
$$x = 24$$

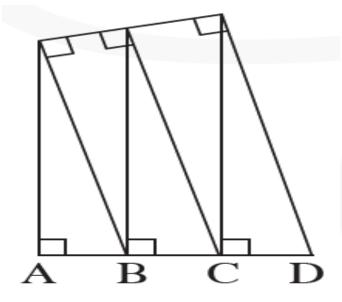

Respuesta

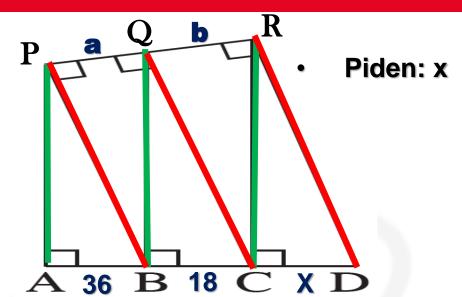

x = 24

Problema 03

En la figura, AB=36 y BC=18. Calcule CD.

• AP // BQ // CR (Teorema de Tales)

$$\frac{a}{b} = \frac{36}{18} = \frac{2}{1}$$
 ... (1)

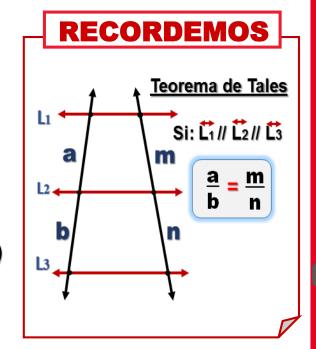

$$\frac{a}{b} = \frac{18}{x}$$
 ... (2)

Reemplazando 1 en 2

$$\frac{18}{x} = \frac{2}{1}$$
$$18 = 2x$$

$$x = 9$$

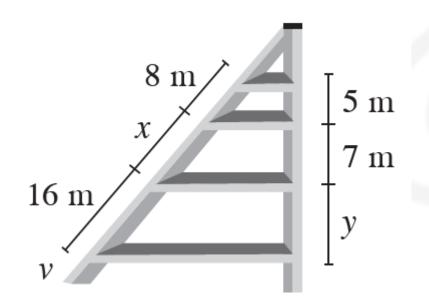

Resolución

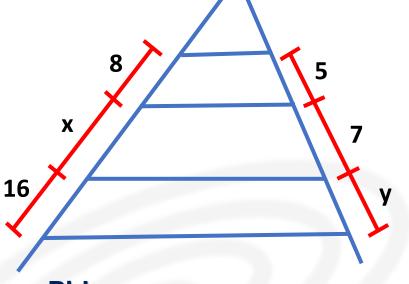

Respuesta

x = 9

Las baldas de una repisa representada en la figura son paralelas. Calcule una de las longitudes de la repisa representadas como x e y.

Piden: x e y

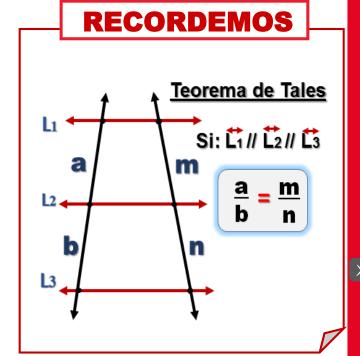

$$\frac{8}{x} = \frac{5}{7}$$

$$56 = 5x$$

$$x = \frac{56}{1}$$

$$\frac{8}{16} = \frac{5}{4}$$

$$y = 10$$

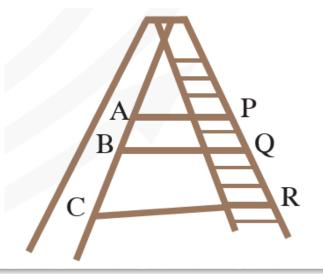

Respuesta $\therefore x = 56/5m$

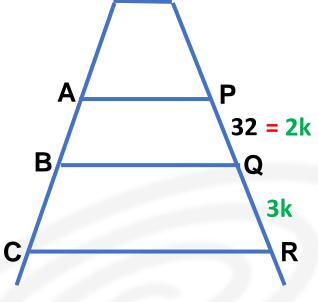

y = 10m

Con el objetivo de mejorar estabilidad de una escalera de tijera, se une con cuerdas tensadas AP, BQ, CR el 2do, 5to y 7mo peldaño de cada lado de la escalera. Si los peldaños están igualmente espaciados y PQ = 32. Calcule QR.

Piden: QR

PQ = 2k

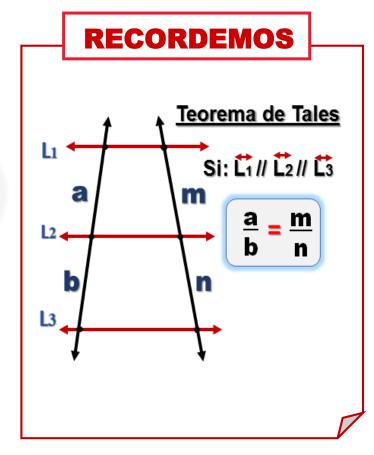

Luego:

$$2k = 32$$

$$k = 16$$

Por teorema de Thales:

$$QR = 3k = 3(16) = 48$$

Respuesta :: QR = 48 cm

HELICO WORKSHOP

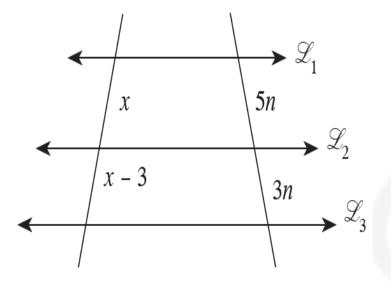

Problema 07

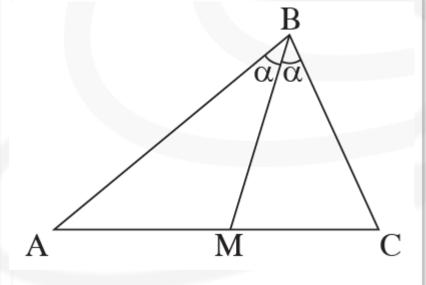

Problema 08

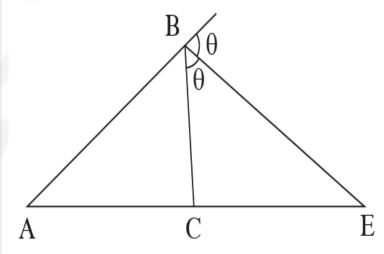

En la figura L1 // L2 // L3. Halle el valor de 2x.

En la figura, AB=8 u, BC=6 u y AC=7 u. Calcule MC.

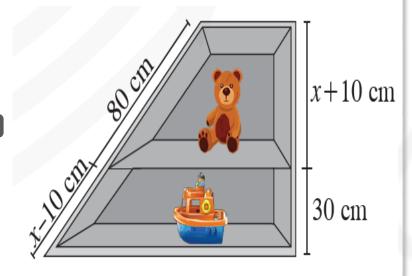

En la figura, AB = 8 u, BC = 6 u y CE= 21 u. Calcule AC.

M

En la figura, se observa una repisa. Determine su altura

En la figura, el pentagrama musical es el lugar donde se escriben las notas musicales, está formado por 5 líneas equidistantes y paralelas, por error se traza el segmento AB y MB = 12 cm. Calcule AM.
